Nishida Hydraulic Wire Rope Cutters

NC-2.5A

Features: All-purpose cutters for wires of various materials and varied gauges.

Principle Uses: Laying of electric power transmission wire and cables, fishing boats, ship-building, electric wire, steel, wire and cable manufacturing facilities, mines, electric rail road companies, civil engineering work, etc.

NC-3.0A

Features: This is nearly the same as type 2.5A in weight but cuts heavy gauge wires that type 2.5A cannot.

Principle Uses: Cableway construction in forests, wire and cable laying work, fishing boats, etc.

NC-3.0A

NC-4.0A

Features: Though large in size, this tool is portable to take to on-site work. It is mainly used for cutting heavy gauge wires and also serves for cutting ordinary steel materials.

Note: Special type cutting blades available for tensile wire rope in all models.

PORTABLE FOR ON-SITE WORK

Model	Cutting Capacity (mm)	Length (mm)	Weight (kg)	Availability of Special Cutting Blades
NC-2.5A	25mm	600mm	6kg	Yes
NC-3.0A	30mm	700mm	7.9kg	Yes
NC-4.0A	38mm	890mm	13kg	Yes
