

HRS Modular Rescue CombiTool

Innovators in
Precision
Rescue Tools &
Equipment

Stainelec Rescue Equipment offers the Ogura HRS cordless rescue system which features a portable, lightweight and compact tool that offers an extremely versatile series of cutting, spreading and forced entry tools.

Featuring a modular design, the HRS system allows users to select only those tools suitable to their desired task and application. Ogura HRS cordless rescue systems feature a 'closed' hydraulic system that minimises maintenance and servicing during the tools lifespan.

Key Features of Ogura HRS Cordless Combi System:

- Powered by a Makita 18Volt Li-Ion battery & motor
- Interchangeable head system offers flexibility and ease of use for cutters, spreaders and jack cylinders
- Cordless hydraulic pump has excellent output performance
- Connection of hydraulic pump by hoses or directly to the pump
- Enables immediate response for rescue operation
- Extensively used by police, fire and military agencies around the world

HRS Modular Rescue CombiTool

1. HRS-931DF Cordless Pump Unit

Battery powered hydraulic pump with quick change coupling

Motor	18V DC
Battery	Makita Li-Ion 18V
Dimensions L x W x H	303 x 111 x 272mm
Weight	4Kgs

2. HRS-932 Cordless Shear Head

Cuts roof pillars, car roofs, car doors, steering wheels, steel tube, deformed cable, etc.

Cutting Force	10 Ton
Cutter Opening	100mm
Dimensions L x W x H	382 x 186 x 104mm
Weight	6.2Kgs

3. HRS-932s 'Stubby' Cutter Head

Ideal for tight locations. Cuts security bars & locks, padlocks, chain, rebar, bolts, etc.

Cutting Force	8 Ton
Cutter Opening	26mm
Dimensions L x W x H	328 x 130 x 104mm
Weight	5.5Kgs

4. HRS-934 Spreader Head

Specially designed narrow spreading tips for easy insertion when in operation.

Cutting Force	4 Ton
Opening Distance	158mm
Dimensions L x W x H	352 x 121 x 78mm
Weight	5.4Kgs

5. HRS-935 Door Opener Head

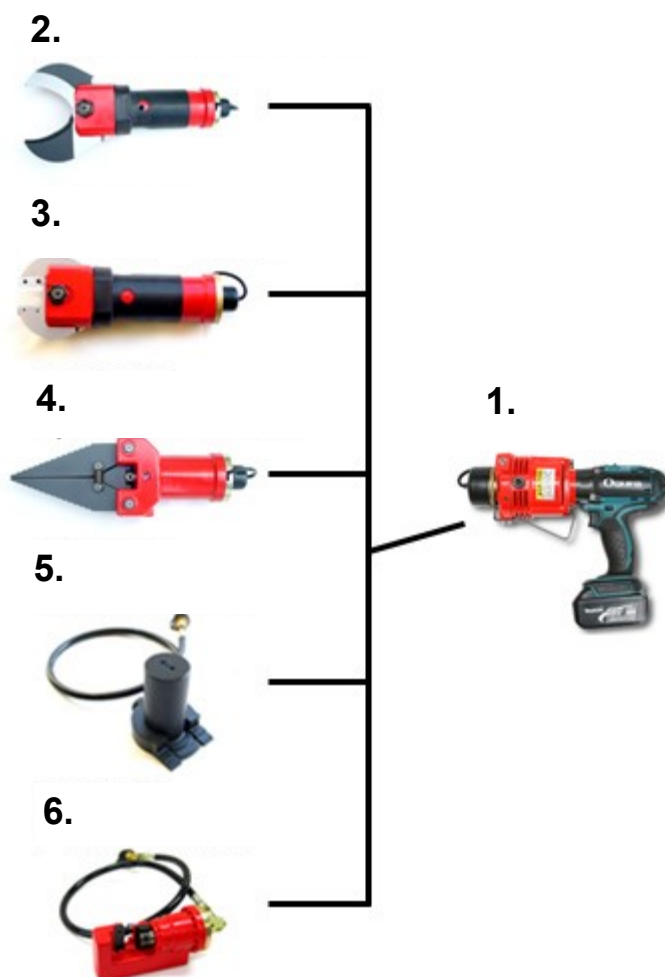

Designed for rapidly breaching doors. Can also be used as a hydraulic ram or jack.

Opening Force	4 Ton
Opening Distance	70mm
Dimensions L x W x H	223 x 120 x 146mm
Weight	4.5Kgs

6. HRS-923 Pedal/Rod Cutter Head

Ideal for tight locations within urban collapsed structures & auto extrication scenarios.

Cutting Force	7.2 Ton
Dimensions L x W x H	228 x 105 x 84mm
Weight	5.2Kgs

A JACK OF ALL TRADES FOR ANY RAPID RESPONSE RESCUE SCENARIO
