

# NCTPF-1 Flexible Head Hole Puncher

Innovators in  
Precision Hole  
Punching Tools  
& Equipment

The NCTPF-1 universal flexible head hydraulic hole puncher allows the operator to rotate the head of the hydraulic puncher into positions, 360 degrees rotation and 180 degrees making it easier to operate in confined spaces and locations. This unit also features a well engineered chucker system that enables the use to switch different punch & die sets in seconds.

Manufactured by Nishida Hydraulic Equipment in Kyoto, Japan. Nishida have over 60 year's of experience in manufacturing and are one of Japan's leading hydraulic portable hole punch manufacturers.

Nishida's precision quality tools & equipment are extensively used and well known in Japan, Europe, US & Australian markets worldwide.
