

## MB-225 Portable Rebar Bender

This lightweight and compact bender is Oguras' new and standard model for bending 25mm rebar. The internal parts are isolated from the processing function by a separator plate that directs trash and iron residue to an outlet in the rear panel.

This unit also features:

- Dial setting for basic angle 0 to 180° with sliding lever for fine control.
- Standard accessories include each size of roller and collar.
- Offers a lightweight design for easy portability as well as user friendly functions to achieve easier work.
