

ORC-16DF Cordless Rebar Cutter

Made In Japan

The New ORC-16DF battery powered rebar cutter is a unique tool developing high power to cut 16mm rebar easily. The unique cutter head can rotate 360° for awkward site locations to cut rebar on a job site. Ogura's rebar cutters are powered by world famous 'Makita' brand Lithium Ion 18 volt batteries and motor. Weight of the tool is just 4.5kg with a cutting speed of 3.5 seconds for 16mm high tensile rebar with the high performance hydraulic pressure pump developing 78.4kN (8 Ton) output.

Also available models for cutting 13mm & 20mm high tensile rebar.

360 Degrees Rotation

THE ONLY CORDLESS CUTTER FOR 16MM REBAR
