

Built in Italy, Edilgrappa P26 / MU26N electric rebar benders are easily maneuverable hydraulic tools designed for plant operators to bend coiled wire and rebar material easily.

Edilgrappa specifically developed P26 / MU26N for use in the construction industry. Though electric, the P26 / MU26N is extremely maneuverable for on-site or factory environments. This unit features user friendly controls for increased productivity & safety for the operator.

The OH&S compliant rebar bender features a unique interchangeable head system which enables the operator to change the operable heads to bend, straighten or cut depending on what material they are working on.

<u>Specifications</u>	<u>Model P26 Bender / MU26N Electric Body</u>
Motor	230 Volt 50Hz 1150 Watt (Double Insulated)
Maximum Bending Material	26mm Maximum Rebar
Weight	P26 Bending Head - 7.6 Kgs MU26N Electric Body - 11.5 Kgs
Dimensions L x W x H	630 x 250 x 170mm
Standard Accessories	Heavy Duty Carry Case
Hydraulic Pressure Output	32 Ton Capacity / 580 Bar

INTERCHANGEABLE HEAD SYSTEM OFFERS A WIDE RANGE OF BENDING, CUTTING & STRAIGHTENING HEADS TO CHOOSE FROM
