

PG22 / 120 DE Cordless Hydraulic Hole Puncher

Innovators in Precision Hole Punching Tools & Equipment

MADE IN ITALY

The Edilgrappa PG22 / 120 DE cordless hydraulic hole puncher is a precision made portable puncher that can be applied to any working position in any given environment, which allows the operator more flexibility to punch holes in confined situations for a wide range of applications. The PG22 / 120 DE can punch through 6mm (250 Grade) mild steel plate maximum thickness.

The Edilgrappa hydraulic hole puncher ranges are manufactured in Italy to ISO9001 standards with quality hardened tool steel. The punching machines are double acting for easy punch return and jamming free operation when in use by the operator.

The Edilgrappa hydraulic hole punchers are effective on a wide range of materials including I beams, channels, angles, tubes and plates. The range is available in both cordless and electric models and are equipped with adjustable support and stripping plates.

Specifications

<u>Specifications</u>	<u>Model PG22 / 120 DE</u>
Motor	18Volt Lithium Ion Battery
Cutting Speed	4.5 Seconds
Maximum Punching Thickness	6mm (250 Grade) Mild Steel
Maximum Punching Size	22mm Diameter
Maximum Throat Depth	120mm
Weight	14.7Kgs
Standard Accessories	Heavy Duty Carry Case
Hydraulic Pressure Output	550 Bar Pressure

Heavy Duty Hole Punching That Doesn't Sacrifice Time or Safety
