

# PG22 / 120 DE Electric Hydraulic Hole Puncher

Innovators in Precision Hole Punching Tools & Equipment

**MADE IN ITALY**

The PG22/120DE electric hydraulic hole puncher is a precision made portable puncher that can be applied to any working position in any given environment, which allows the operator more flexibility to punch holes in confined situations for a wide range of applications. The PG22/120DE can punch through 6mm (250 Grade) mild steel plate maximum thickness.

The Edilgrappa hydraulic hole puncher ranges are manufactured in Italy to ISO9001 standards with quality hardened tool steel. The punching machines are double acting for easy punch return and jamming free operation when in use by the operator.

The Edilgrappa hydraulic hole punchers are effective on a wide range of materials including I beams, channels, angles, tubes and plates. This range is available in both cordless and electric models and are equipped with adjustable support and stripping plates.

<u>Specifications</u>	<b>Model PG22/120DE Electric Hydraulic Hole Puncher</b>
<b>Motor</b>	230 Volt /50Hz (120 Volt/60Hz Also Available)
<b>Cutting Speed</b>	3.5 Seconds
<b>Maximum Punching Thickness</b>	6mm (250 Grade) Mild Steel
<b>Maximum Punching Size</b>	30mm Diameter
<b>Maximum Throat Depth</b>	120mm
<b>Weight</b>	14Kgs
<b>Standard Accessories</b>	Heavy Duty Carry Case
<b>Maximum Punching Force</b>	15 Ton
<b>Hydraulic Output Pressure</b>	700 Bar Pressure

*Heavy Duty Hole Punching That Doesn't Sacrifice Time or Safety*
